

# The degree that the world and I has disappeared and only the redeeming Lord is seen

(This man refers to the Victor of the Victory Altar.)

Like a hymn, only when the world and I have disappeared, nothing but the redeeming Lord is seen, one is saved. If one is not at the condition, they cannot be saved. As This man went up to the level that the world and I have disappeared and only God is seen, God called This man to the Secret Chamber. There, as This man always thought of only the Lord and looked at the eyes of God, the condition that the world and I have disappeared and nothing but the redeeming Lord is seen was accomplished. Only if one is at the degree that they can not be conscious of themselves though they try to be conscious of themselves, they can not think of the world though they try to think of the world, they come to be conscious of only the Savior, whether they close their eyes or open their eyes, they always think of only the Savior, the spirit of the Savior comes to them. Like this hymn, you should be conscious of God, think of God, love God, look at God always in order to be in the condition where 'I' and the world have disappeared. If you are not in the condition, you can not become God.

### The point of the Bible is to look at only the Lord

The point of the Bible is to look

at only God forgetting the world and I. Looking at only the redeeming Lord and thinking of the redeeming Lord is eating the fruit of life, it is the secret of being reborn as the Holy Spirit. Only if one thinks of only God, is conscious of only God, and has only a heart to love God each second, God will come to them. If one has a heart to be filled with distracting thoughts, the spirit of God will not come to them. If one has distracting thoughts, their heart will be full of the spirit of Satan, so God cannot come to them.

This man got a hint from the words of the Spiritual Mother, 'if one looks at only God, is conscious of only God, and thinks of only God, the spirit of God will come to them.' When the Spiritual Mother said, "If one looks at the people who are occupied by Satan, they will be polluted by Satan", This man realized that if one looks at the person with God every second, they will be influenced by the spirit of God. Therefore, when you look at the person who has the spirit of God every second and thinks of the person with the spirit of God every second, the spirit of God comes into your mind. This is the secret of receiving the grace of God, the secret of eating life fruit, and the secret of achieving eternal life.

### The Victor completes the Bible

This is not in the Bible. Because the Victor did not write the Bible, and the loser wrote the Bible, so the complete words of the Victor are not in the Bible. Some people believe the Bible is complete. As the word written by a sinner is a picture of a sinner's thoughts, it is a book that depicts the mind of a sinner, and as the man who received the grace of God a little among sinners wrote the Bible, the Bible is not complete. Like a logic that a candle-lit room is brighter than a lamp-lit room, an electricity-lit room is brighter than a candle-lit room, as the room where the sun shines is lighter than the electricity-lit room, now This Man is a shining bright light like sunlight to you. So it is the same principle that you can see well the little things that were not seen well when you lived under the lamp in a bright light like sunlight. So far you have only known that it is sin to think wrongly, and sin is to act wrongly. But there is a man who is full of the spirit of God, who is a bright light, saying that sin is consciousness, 'I'. Therefore, as consciousness of 'I' is the spirit of Satan, the spirit of sin, and the mind of Satan, if one thinks and lives as one's consciousness of 'I' claims, their blood decays and die. This is a very scientific word, but the scholars of the world do not know it.

Something to decay blood is sin.

If consciousness of 'I' controls one's mind, their blood decays. If one's blood decays, their lives decays, and they die, it is a deathful sin. Therefore, no matter what the consciousness of 'I' thinks of, it is a deathful sin. People who know the Bible and the Buddhist scriptures do not know this fact. The meaning that the consciousness of 'I' is Satan and sin is in the word that "one is saved by being reborn as the Holy Spirit." It is in the word "Throw I away." As the word, "Act in God" means not to act in me, it means what 'I' act is a sin. It was not written that what I do is a sin, That's what it means. There was no one who could divide these words and teach them accurately.

### The Law of causality is True

The law of causality written in the Bible and the Buddhist Scriptures.

A person who died of being run over by a car died because they did things to die. This person speaks of a perfect word without any flaws. This man teaches the secret of eternal life, the not dying secret, the secret of being God and living for forever. If there is a man who tells people that they will get eternal life only if they come to the Victory Altar without teaching them the way of immortality, they are the same as Jesus or Buddha. One is saved only if they observe the Law of Liberty.

The Law of Liberty is to kill Satan, the way to kill Satan is to destroy my thoughts, and the life that will erase my thoughts perfectly every second is the life to kill me. If you do not go this way though This man teaches you in detail, you are fools. Teaching in detail like this, anyone can go this way. Removing me, my minds, my consciousness, and my thoughts every second is the way of throwing I away. One should throw I away all the time. So the word, "Throw I away all the time" is done.

Therefore, if 'I' is completely erased, only conscience, the spirit of God remains. If only conscience, the Spirit of God is left, one can not die, and evil can not come out. Anger can not come out, the mind to hate can not come out, and the fight can not be done. If someone beat This man, he was grateful for the person who beat him and loved him better. This person has said this since the beginning.

Although one persecuted This man in Sinangchon for 30 years, was turned him away as Satan, hated him to the end, called him Satan, and did not response his greetings, he greeted. Later although the man spit on This man's suit, cutting off a grass leaf and cleaning it with the grass leaf, he passed with his head bowed. A normal person would get angry, but as This man did not say and passed his head

bowed, he thought that This man had something different. So the person who spit on This man later liked him most. Satan is killed by the weapon of love, it is not killed by evil.

### Hating oneself is a winning life

This man hated himself. He hated himself so much that he would not be angry but rather agreeably if the other hated and hit him. If you become angry when someone swear and slap you, you become Satan because you stand in the position of Satan. As This man did not stand in his position, he stood on the side of the person who hit This man, thought agreeably and have a mind, "hit me more", he stood on the side of God. Having such trials, This Man lived winning lives. This Man speaks not to boast himself, but to go this way as it is. Teaching you the secret to defeat Satan, you must live a life of defeating Satan.

Knowing the Bible and prophetic books well, one is not accomplished. One achieves immortality only if they overcome 'I'. Only if one defeats I they can be saved by being reborn as Holy Spirit. If one does not overcome 'I', to know a lot is useless.\*
